---

Hi all -

As discussed at today's meeting, there are several significant issues that need to be discussed over the coming weeks. The first step will be to identify participants for each meeting. The LWG will start discussing timing and process for these meetings and make a recommendation to the Agency team. I will then work with each of the teams to schedule an initial meeting.

The issues noted for focused discussion are, in no particular order:

- Fate and Transport
- Food Web Model
- Feasibility Study (discussion and process)
- Human Health and Ecological Risk Assessment (scale, process, appropriate risk screening)
- Conceptual Site Model (scale and scope)
- Schedule

A representative from each agency/group should let me know who will be participating in each of these meetings by responding to this email. It would be helpful if the government folks would please provide the full name, affiliation, and email address for each participant you're recommending.

thanks  
valerie
